

**Remarks**

Claims 1-28 were filed in the above captioned application. Claims 1-28 correspond to claims that were prosecuted in the parent application, United States Patent application Ser. No. 09/953,026 or were restricted out of that parent application and have been filed in a co-pending divisional application.

New claims 29-100 have been added to claim aspects of the present invention without certain limitations contained in the allowed claims of the parent deemed unnecessary to define over the prior art.

These claims, as were the claims allowed in the parent, should be allowable, and applicants respectfully request that the Examiner allow claims 29-100.

**Conclusions**

For the above stated reasons the Examiner is respectfully requested to allow claims 29-100.

The Commissioner is hereby authorized to charge our Deposit Account No. 03-4060 of applicants' assignee, Cymer, Inc., in the amount of \$1706.00 for the filing fee of \$770.00 and \$936.00 for the additional claims. The Commissioner is authorized to charge our Deposit Account for any other amounts relating to the prosecution of the claims presented in this application.

Respectfully submitted,
